Cotton Choices® gives you the flexibility to choose how to pay your trait technology fees based on what's likely to give you the best return.

In 2022/23, the Cotton Choices® program continues to provide you with consistency and flexibility in how you pay for your Bayer technology fees. Key features of the program are:

- Three unique choices that allow you to opt for an upfront discount, manage risk through late crop removal and payment terms, or pay on a per-bale basis after ginning.
- Choose one of the Cotton Choices across your farm, or a different one for each field.

NEW IN 2022/23

Can't decide which Cotton Choice is for you? Bayer has extended the Cotton Choice change date, providing more flexibility to help you select the best choice. You can now switch between Cotton Choices 2 and Cotton Choices 3 until 10 May.
