

Reap as you sow sorghum and maize.

Right from the moment of sowing, Gaucho insecticidal seed treatment protects your interests by setting up your crop for the best possible yield. Gaucho protects each and every seed from attack by insects. It also protects each and every seedling right through its vulnerable early growth phases. So Gaucho

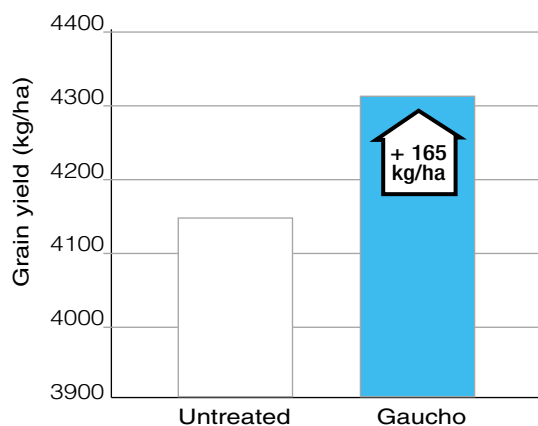

cuts down on your need to spray, protecting the environment and allowing beneficial species to flourish unharmed. Since healthy plant establishment makes such a healthy difference when it comes to harvest time, Gaucho also protects your profits. Protect your interests. Order your Gaucho when you order your seed.

 **Gaucho**[®]
Precision. Protection.
