

INFINITO®

Crop Guide Potatoes

**INFINITO works fast
and lasts longer,
providing excellent late
blight control**

**INFINITO® is a new generation fungicide
bringing two new active ingredients to
Australian potato growers.**

The active ingredients have different modes of action that work together to deliver the ultimate protection against late blight.

The result is a fast-acting, long-lasting product, active against all key stages in the late blight life cycle. As well as having upward systemic movement in the plant, INFINITO has strong translaminar and anti-sporulant activity. INFINITO is equally effective under all weather conditions and is quickly rainfast, providing long lasting protection.

A Quick Glance at INFINITO

Disease	Late blight (<i>Phytophthora infestans</i>)
Rate	1.2 – 1.6 L/ha
Resistance Management	INFINITO, a Group 28 and 43 fungicide, contains two active ingredients, providing an in-built resistance management solution. There is no requirement for an additional protectant
Activity	Protectant, systemic, translaminar and anti-sporulant
Rainfastness	INFINITO is rainfast after the spray has dried
Compatibility	Compatible with most commonly used insecticides and fungicides. For further details, please contact your Bayer Crop Science representative
Spray Interval	Commence application when conditions favour disease development - when humid or wet conditions favour infection. Apply according to late blight infection periods or local warnings and before first sign of infection and repeat at 7-10 day intervals. In the absence of any warnings, applications should commence when the crop meets along the row
Water Rate	Use a water rate sufficient to ensure complete coverage
WHP	14 days
Number of Applications	Do not use more than 2 applications per crop
Adjuvants	Not required
Pack Size	10 L bottle. DrumMaster® eligible

INFINITO delivers the technology to protect:

- **NEW MODE OF ACTION**

INFINITO contains two active ingredients that work together, targeting all key stages in the diseases lifecycle.

- **BUILT IN RESISTANCE MANAGEMENT**

The two active ingredients in the formulation provide a robust anti-resistance strategy. There are no reported cases of resistance to either active ingredient globally.

- **FAST ACTING**

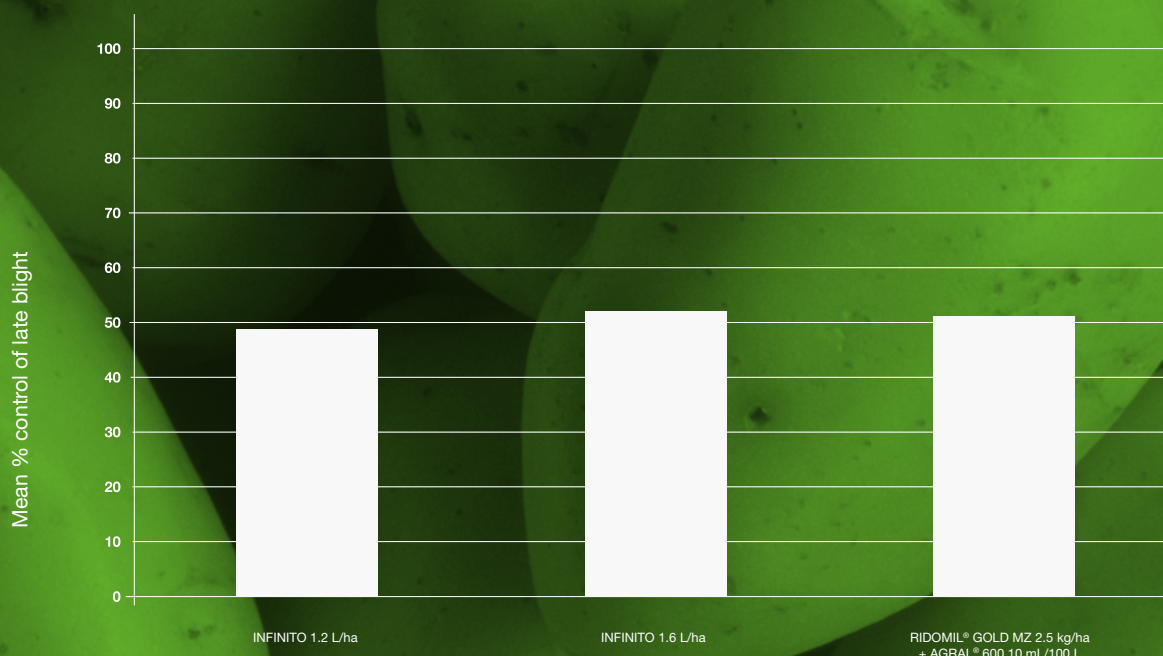

INFINITO begins to penetrate the plant tissue within minutes and is highly systemic, moving quickly into the leaves and stems and inhibiting the development of disease.

- **FLEXIBLE AND EASY TO USE**

INFINITO is available in a liquid, suspension concentrate formulation in an easy to use 10 L bottle. No adjuvant is required and INFINITO is rainfast on drying.
