

INFINITO®

Crop Guide Brassica Vegetables

**INFINITO works fast
and lasts longer,
providing excellent
white blister and
downy mildew control**

**INFINITO® is an innovative new fungicide
bringing two active ingredients to
Australian brassica vegetable growers.**

The active ingredients have different modes of action that work together to deliver the ultimate protection against diseases.

The result is a fast-acting, long-lasting product, active against all key stages in the disease life cycle. As well as having upward systemic movement in the plant, INFINITO has strong translaminar and anti-sporulant activity. INFINITO is equally effective under all weather conditions and is quickly rainfast, providing long lasting protection.

A Quick Glance at INFINITO

| | |
|-------------------------------|--|
| Disease | White blister (<i>Albugo candida</i>) Downy mildew |
| Rate | 1.2 – 1.6 L/ha. Rates for each disease vary. Please refer to INFINITO label for further details. |
| Resistance Management | INFINITO, a Group 28 and 43 fungicide, contains two active ingredients, providing an in-built resistance management solution. There is no requirement for an additional protectant |
| Activity | Protectant, systemic, translaminar and anti-sporulant |
| Rainfastness | INFINITO is rainfast after the spray has dried |
| Compatibility | Compatible with most commonly used insecticides and fungicides. For further details, please contact your Bayer Crop Science representative |
| Spray Interval | Commence application when conditions favour disease development - humid or wet conditions. Apply before first sign of infection and repeat at 7-10 day intervals |
| Water Rate | Use a water rate sufficient to ensure complete coverage |
| WHP | Brassica vegetables: 0 days |
| Number of Applications | Do not use more than 3 applications per crop |
| Adjuvants | A non-ionic wetter eg Agral* 600 should be added at 10 mL / 100 L of spray solution |
| Pack Size | 3 L and 10 L bottles. DrumMaster® eligible |

INFINITO delivers the technology to protect:

- **MODE OF ACTION**

INFINITO contains two active ingredients that work together, targeting all key stages in the disease's lifecycle.

- **BUILT IN RESISTANCE MANAGEMENT**

The two active ingredients in the formulation provide a robust anti-resistance strategy. There are no reported cases of resistance to either active ingredient globally.

- **FAST ACTING**

INFINITO begins to penetrate the plant tissue within minutes and is highly systemic, moving quickly into the leaves and stems which inhibits the development of disease.

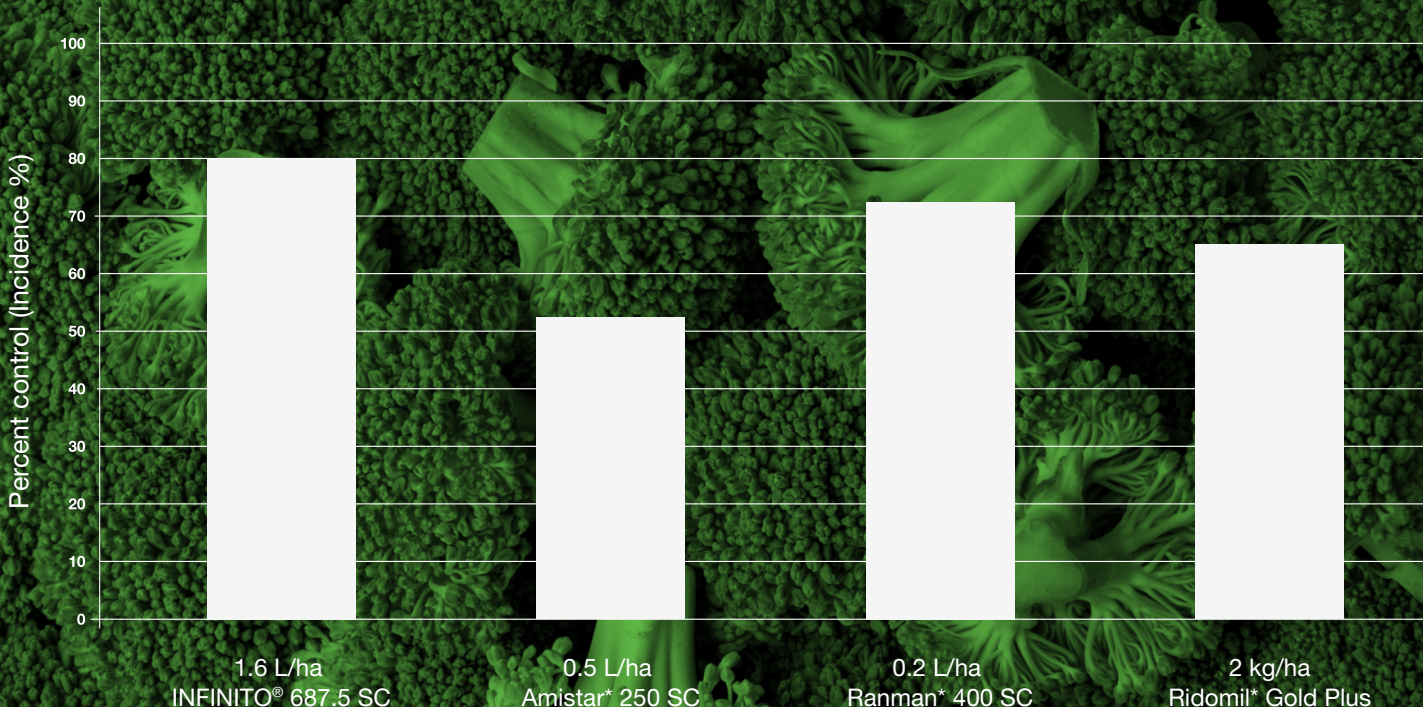

- **FLEXIBLE AND EASY TO USE**

INFINITO is available in a liquid, suspension concentrate formulation in easy to use 3 and 10 L bottles. INFINITO is rainfast on drying.

INFINITO®

MEAN PERCENTAGE CONTROL OF WHITE BLISTER INCIDENCE

(Data summary from 5 replicated trials) Trial ref: FD17QB81, FD17QB80, FD17QB43, FD17QB42, FD17QB78.

10 mL/100 L of Agral 600 added to all
